Viscosity Standard Fluids

VISCOCHECK Viscosity Standards provide a reliable & traceable way to verify the calibration of all your rotational Viscometers / Rheometers. VISCOCHECK Viscosity Standards are Newtonian and they are made from Silicone Fluids.

QR coded for easy identification

VISCOCHECK Viscosity Standard Fluids

Key features of VISCOCHECK Fluids

- Accuracy: ±1% of viscosity value
- NIST Traceable
- Reliable temperature stability
- Recommended for use with all rotational viscometers
- All standards ex-stock
- Economical

VISCOCHECK Silicone Fluids

Product ID	cP (mPa•s)	Temp °C
VC 5	5	25.0 °C
VC 10	10	25.0 °C
VC 50	50	25.0 °C
VC 100	100	25.0 °C
VC 500	500	25.0 °C
VC 1,000	1,000	25.0 °C
VC 5,000	5,000	25.0 °C
VC 12,500	12,500	25.0 °C
VC 30,000	30,000	25.0 °C
VC 60,000	60,000	25.0 °C
VC 100,000	100,000	25.0 °C
