

Cryo-Gloves®

Cryogenic Protection in Ultra-Cold Environments

- Cryogenic protection for ultra-cold applications down to -196°C (-320°F)
- State-of-the art materials and a multi-layered construction allow for a maximum level of thermal protection, flexibility, and dexterity which are essential features when function is important and safety is critical
- High performance, thermal inner lining wicks moisture away from hands, maintaining comfort over extended periods
- Safety certified to meet EU standards: EN 511, EN 388, EN 420

Applications:

- Handling dry ice, low and ultra-low temperature freezers, closed cryogenic systems
